

Setting Safari Homepage

When you Launch Safari or open a new Window it will go to the default Homepage, on a new Mac this is AppleLive, if you wish to change Homepage you can.

1. Browse to the Web Page, you wish to set to your Homepage
2. Open Safari > Preferences... menu

3. On the General Panel
4. Click Set to Current Page button

Also: Top Sites

By clicking on this icon you will be shown your Top Sites and/or History, a great way to get to back to frequently visited web pages.
